

Your generous donation enables cancer prevention, early detection, clinical trials, leading-edge research, and treatment in Manitoba.

100% of your donation stays in Manitoba

19 Manitobans a day receive a cancer diagnosis

2 in 5 Canadians will be diagnosed in their lifetime

There will be a **50%** increase in Manitobans diagnosed and living with cancer in the next two decades

CancerCare Manitoba is a national leader in pediatric clinical trials with the highest participation rate for pediatric patients

Donations fund more than **65%** of the pediatric clinical trials in our province

Your gifts and support allow for:

Local Discoveries enabling the best and brightest scientists and doctors to undertake leading-edge research here in our province

Clinical Trials providing tomorrow's treatments today

Capital Initiatives supporting state of the art equipment, cancer research, and treatment facilities

Cancer Prevention & Early Detection

Improving Patient Outcomes

Your donations make a huge difference in changing the course of cancer in Manitoba

64%

five-year cancer survival rate

(up from **55%** in early 1990s)
